

# SPM-300E

SERIES

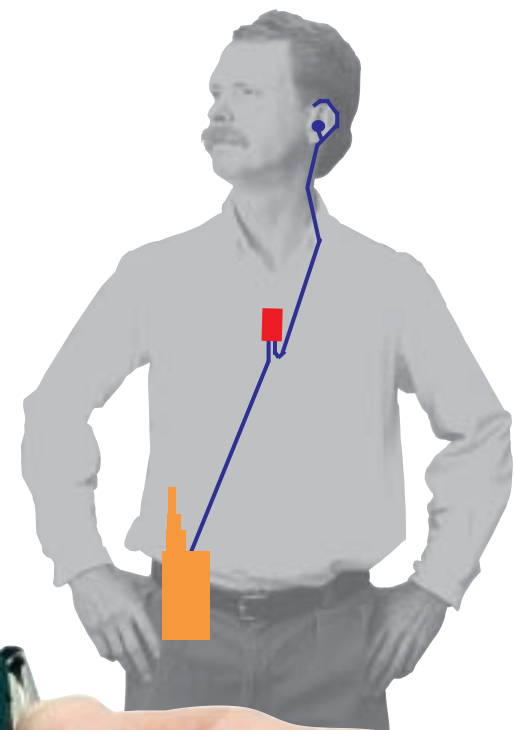

## Medium Duty Lapel Microphone

The PRYME SPM-300E series is a rugged lapel mic and in-line earphone for two-way radio use. The unit features a high-quality electret condenser microphone and PTT combo in a rugged polycarbonate housing with a metal clip. The microphone easily clips to the user's lapel or collar, and the conveniently located Push-To-Talk makes it a snap to use. For even more durability and longevity, the SPM-300E features heavy-duty polyurethane jacketed, coiled mic cable. The SPM-300E is available in either black (SPM-300EB) or clear (SPM-300EC).

The speaker on the SPM-300E series is held in place by a convenient rubber earhook. The earhook provides additional support and also makes the SPM-300E extremely comfortable to wear. The low profile nature of the SPM-300E makes it perfect for all light and medium duty applications, such as surveillance and "black tie" security. The SPM-300E series microphones are one of the most comfortable lapel surveillance microphones on the market today!

SPM-300EC  
(with Clear Earphone)

### SPECIFICATIONS
