

Tamper-Resistant, Rear Keystone Mounting.

Nylon Plates Virtually Unbreakable.

## Angled Plates

Provides application flexibility at the workstation.

TIA/EIA-606-A label fields.

Consistent color match.

### FEATURES

- Jacks or A/V connectors snap mount at 45° angle - ST-style, SC duplex and coax outlets.
- Provide for 606 location labeling compatible with today's needs and future moves, adds, and changes.
- Supports multiple applications at station site.
- Available in four colors.

### SPECIFICATIONS

- ◆ High-impact, UL 94V-0 rated thermoplastic.
- ◆ Plates are 2.75" x 4.5" (69.8 mm x 114.3 mm).

### STANDARDS/LISTINGS/VERIFICATIONS

- UL and cUL listed.
- ANSI/TIA/EIA-606A station labeling capability.

Hubbell Premise Wiring's angled wall plates offer 45° jack and Audio/Video connector mounting along with TIA/EIA-606A station labeling ability and the traditional features of HPW's standard flush wall plates.

The AFP plates are designed for flush mounting any of Hubbell's **XCELERATOR™** jacks or Audio/Video connectors.

The design of the AFP plate positions the patch cord down at an angle of 45°, which provides additional protection against exceeding the minimum bend radius. The 45° angle also protects the patch cord/jack connection from being damaged from office furniture. AFP plates include 2 smooth locations for adhesive labels or can be fitted with optional snap in clear label covers and paper inserts.
