

# SSP-561 Telephones

**Stainless Steel Panel, Vandal Resistant, Rugged Telephones Built to Last**

The CEECO 561 Series Stainless Steel Panel Telephones are designed for use in public areas that may be subject to high use or abuse. The telephones' rugged design is for flush mount installation and includes the rough in mounting box. The handsfree operation eliminates costly repairs due to damaged or missing handsets and also allows the called party to hear what is going on in the local vicinity should the phone be used for emergency purposes. The internal circuitry of the telephone provides exceptional overall sound quality. The speakerphone has a press to start/stop button for initiation or termination of phone calls, but the unit will reset itself to the on-hook condition when the called party disconnects. CEECO's 561 series telephones offer reliable communication for your flush mount speakerphone applications.

**CEEEO has been providing telecom solutions since 1930. Our vandal resistant technology focuses on providing public communication solutions while reducing replacement and repair costs, lowering the customer's total cost of ownership. CEEEO also offers custom design and branding to your specifications.**

**Our commitment to providing expert service and support extends beyond the warranty of our product. We offer service for the life of the product! CEEEO is devoted to giving you the quality and service you deserve.**

## WARRANTY POLICY

### GENERAL

CEEEO guarantees its products to be free from defects in material and workmanship for a period of 365 days from the date of original purchase. CEEEO's obligation under this warranty is limited to repair or replacement of any part found to be defective by CEEEO.

UNDER NO CIRCUMSTANCES shall CEEEO be liable for loss, damage, cost of repair or consequential damages of any kind, which have been caused by neglect, abuse or improper operation of equipment.

CEEEO will repair or replace any unit during this period if found to be defective for reasons other than abuse and improper use or improper installation. It is the buyer's responsibility to return the defective unit to the factory. CEEEO will then repair or replace any defective parts and return them to the buyer free of charge. CEEEO supplies replacement parts and offers repair service for the life of the product.

## REPAIR POLICY

### WARRANTY REPAIR

Any device returned requiring warranty service, repair or credit must be accompanied with a "Return Material Authorization" (RMA) Form. It must include: RMA Number, return shipping instructions, original purchase order number, serial number and special marking instructions. A tag with the trouble observed must be attached to the defective unit. This information must be inside the shipping container.

### NON-WARRANTY REPAIR

CEEEO will repair equipment out of warranty for a set charge plus parts. The customer must pay the shipping costs both directions.
