SPECIFICATIONS

MODEL SSP-571-D/SSP-571-X

Flush mount brushed stainless steel panel telephones with full-duplex speaker, adjustable conversation timer (1 to 9 minutes), automatic disconnect sensors to reset for a new call when called party disconnects, and push button auto dialer or ring-down (please specify).

MODEL SSP-571-D-ADA

Offers all features of the Model SSP-571-D plus an LED which lights red when off-hook and turns green when the call is answered. Also includes a Braille Emergency Plate.

MODEL SSP-571-DSS SUPER SMART

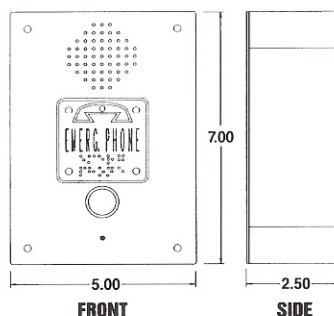

SUPER SMART model provides the ultimate features in ADA compliant security and emergency telephones — recorded voice announcements for answering point and emergency point, second number auto dialing, remote reprogramming, remote site monitoring, LED to indicate the call has been answered, and line powered.

MODEL SSP-550-D/SSP-550-X

The MINI-PHONE is designed for extremely space limited areas. Features include push button auto dialer or ring-down, LED to indicate off-hook, conversation timer, and automatic reset for new call. (See dimensional drawing below).

MODEL SSP-570-D/SSP-570-X

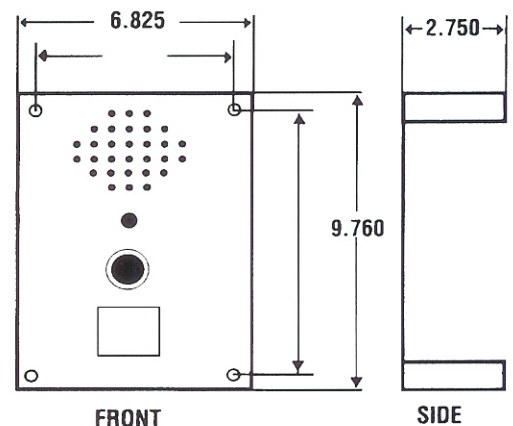

For low power applications. Available with automatic dialing or ring-down feature. Includes LED to indicate off-hook. Not available with other ADA features.
