

Lighting Controls Group

LIGHTING CONTROLS GROUP

Setting the mood for any occasion in every room

Light defines every feature in a home, and, through variation, can even change a room's personality. By artfully controlling lighting, a room or zone can take on many levels of involvement, from intimacy to excitement.

Leviton Integrated Networks takes care of the "control" aspect by providing three levels of advanced lighting products aimed at bringing more comfort and style to

the two primary segments of the home: the living areas, and the bed and bath areas. *Living Director* upgrades kitchens, dining rooms, offices, dens and hallways, with stylish controls for lighting

fixtures and ceiling fans. *Bed & Bath* focuses on bedrooms, bathrooms, associated hallways and common areas, with controls specifically designed for these applications. Together, these two innovations transform the home into an environment suitable for entertaining, working, relaxing, and much more.

Cinema Style is an option that can equip a home theater with a theatrical-grade intelligent lighting system that's at home with any video presentation, from casual channel-surfing to feature-length films.

Lighting Magic saves time by providing "hands-free" occupancy and motion-sensing ON/OFF activation in critical walk-through and walk-in areas such as garages, laundries, hallways and closets. In garages, *Lighting Magic* also provides extra safety by turning entry lights ON before anyone gets out of the vehicle.

These Lighting Control upgrades do more than add ambience. They also add value. Even at modest settings, dimmers save energy and increase light-bulb life, while occupancy / motion sensors turn lights ON only when needed.

All Leviton Lighting Controls are inspired by the Leviton commercial and architectural lighting systems appearing in art galleries, hotels, fine restaurants and other high-profile venues. All are built to a higher level of quality, with superior on-board filtering technology, precision control features, air-gap internal switching, encapsulated gold surfaced contacts and improved heat-dissipation design. The result is a line of lighting controls designed for the life of the home and built to withstand the rigors of everyday use.

Traditional Lighting Group

Classic and unobtrusive toggle styling hides advanced lighting technology that provides extraordinary control from ordinary-looking controls. Based on Leviton's ToggleTouch™ lighting control, the *Traditional Group* is a masterpiece of digital design in a timeless setting.

ToggleTouch uses digital electronics and Touch Pad technology to provide fingertip-control

dimming with advanced features such as preset dimming and soft-ON. Protected memory ensures that each ToggleTouch control retains its memory after power outages.

SYSTEM PACKAGES

Traditional Living & Entertainment Director Package

Dimmers in living room, family room, dining room, bathroom and entry area

Type	Cat No.	Description
ToggleTouch™ 600W Incandescent Dimmer (No LED locator)	TGI06-10	Controls light levels
ToggleTouch™ 600W Illuminated Incandescent Dimmer	TGI06-1L	Controls light levels—helpful in dark hallways
ToggleTouch™ 1000VA Illuminated Magnetic Low-Voltage Dimmer	TGM10-1L	Controls light levels—helpful in dark hallways

Bed & Bath Ambience Package

Dimmers in bedrooms and bathrooms, and timers in the bathrooms

Type	Cat No.	Description
ToggleTouch™ 600W Incandescent Dimmer (No LED locator)	TGI06-10	Controls light levels
ToggleTouch™ 600W Illuminated Incandescent Dimmer	TGI06-1L	Controls light levels—help in dark hallways
Lighted Toggle Switch	5501-LH	Illuminated switch helps in dark areas
3-Way Lighted Toggle Switch	5503-LH	Illuminated switch for multiple switching
Timer Switch	6230M	Timers turn OFF exhaust fan in bathrooms using factory-set time increments of 5-10-20-30 minutes

Lighting Controls Group

DECORA LIGHTING GROUP

Leviton's hallmark design is re-expressed for contemporary applications in these high-style lighting controls. Centered on Leviton's acclaimed Illumatech™ slide dimmer, the Decora Lighting Group includes innovations such as digital timers for bathroom fans (turns fans OFF after preset intervals), and Lighting Magic occupancy/motion sensors for hands-free ON/OFF switching in walk-through and walk-in areas. Proven in the hospitality industry, the Decora Lighting Group is ideal for bringing style and utility into today's homes. Features include power-failure recovery, exceptionally fluid slide control, and full compatibility with models designed for different types of lighting fixtures including fluorescent and low-voltage.

SYSTEM PACKAGES

Decora Living & Entertainment Director Package

Includes dimmers in all living areas such as living room, kitchen, family room and dining room as well as dimmers and fan timers in the bathroom.

Type	Cat No.	Description
IllumaTech™ Preset 600W Incandescent Dimmer with LED Locator	IPI06-1L	Single-Pole and 3-Way preset fluid slide incandescent dimming control with LED indicator when lights are OFF
IllumaTech™ Preset 400VA Electronic Low-Voltage Dimmer with LED locator	IPE04-1L	Single-Pole and 3-Way preset fluid slide electronic low-voltage dimming control with LED indicator when lights are OFF
IllumaTech™ Quiet Fan Speed Control with LED Locator	IPF01-1L	Ideal for up to 1.5 Amp preset step fan speed control with LED indicator when fan is OFF in libraries, study rooms and wherever fan noise could become distracting
IllumaTech™ Incandescent Dimmer (no preset)	INI06-1L	Single-pole fluid slide incandescent dimming control with LED indicator when lights are OFF
IllumaTech™ Magnetic with Low-Voltage Dimmer (no preset)	INM06-1L	Single-pole fluid slide magnetic low voltage dimming control LED indicator when lights are OFF

Decora Bed & Bath Ambience Package

Includes illuminated switches in hallways, dimmers in bedrooms and dimmers plus timers in the bathroom.

Type	Cat No.	Description
IllumaTech™ Preset 600W Incandescent Dimmer with LED Locator	IPI06-1L	Single-Pole and 3-Way preset fluid slide incandescent dimming control with LED indicator when lights are OFF
IllumaTech™ Preset 400VA Electronic Low-Voltage Dimmer with LED locator	IPE04-1L	Single-Pole and 3-Way preset fluid slide electronic low-voltage dimming control with LED indicator when lights are OFF
IllumaTech™ Quiet Fan Speed Control with LED locator	IPF01-1L	Ideal for up to 1.5 Amp preset step fan speed control with LED indicator when fan is OFF to eliminate distracting fan noise
Decora Quiet Rocker Switch	5613	3-Way illuminated switch (when OFF)
Decora Quiet Rocker Switch	5611	Single-Pole Illuminated (when OFF)
Timer Switch	6230M	Fan Timers

Decora Lighting Magic Package

Provides energy savings plus convenience. Includes motion sensor light switches in areas such as the laundry room, the garage and entryways as well as a timer in the attic.

Type	Cat No.	Description
Occupancy Sensor	6800	Automatic light switch turns lights ON and OFF in response to occupancy

Lighting Controls Group

DESIGNER LIGHTING GROUP

Remote-controllable architectural-grade lighting that's equally at home in a residence as it is in art galleries and museums. The Designer Lighting Group is based on Leviton's Mural™ and TouchPoint™ digital dimmers that use advanced microprocessor circuitry for extremely precise control.

SYSTEM PACKAGES

Designer Living & Entertainment Director Package

In *Living & Entertainment Director* applications, dimmers are replaced with multiple Mural Scene Capable Dimmers that can be combined with a Scene Controller to effect flexible, preset lighting scenes with IR remote control over entire zones (such as an open kitchen/family room area).

Type	Cat No.	Description
Mural™ Decora-Style Dimmer	MSI06-1L	600W Incandescent Dimmer with LED locator is easily found in dark areas
Mural™ Decora-Style Dimmer	MDI06-1L	600W Incandescent Dimmer with LED locator and LED Brightness Display is easily found in dark areas and indicates level of illumination
Mural™ L/S (Level Set) Decora-Style Preset Digital Dimmer	MLI06-1L	600W Incandescent Dimmer with LED locator is easily found in dark areas
Mural™ L/S (Level Set) Decora-Style Preset Digital Dimmer	MRI06-1L	600W Incandescent Dimmer with LED locator is easily found in dark areas and indicates level of illumination
Mural™ Multi-Remote Unit	MS00R-10	Remote Switch permits Multi-Location Dimming
Mural™ Decora-Style Dimmer	MDM06-1L	600VA Magnetic Low-Voltage Dimmer with LED locator and LED Brightness Display is easily found in dark areas and indicates level of illumination
Mural™ L/S (Level Set) Decora-Style Preset Digital Dimmer	MLM06-1L	600VA Magnetic Low-Voltage Dimmer with LED locator and LED Brightness Display is easily found in dark areas and indicates level of illumination
Mural™ Scene Capable Decora-Style Digital Magnetic Low-Voltage Dimmer	MCM06-1L	600VA Scene Capable Incandescent Magnetic Low-Voltage Dimmer with LED locator and LED Brightness Display is easily found in dark areas and indicates level of illumination that can be set by a Scene Controller Device
Mural™ Scene Capable Decora-Style Digital Magnetic Low-Voltage Dimmer	MCM10-1L	1000VA Scene Capable Incandescent Magnetic Low-Voltage Dimmer with LED locator and LED Brightness Display is easily found in dark areas and indicates level of illumination that can be set by a Scene Controller Device
Mural™ Scene Controller	MN00C-1L	7 Lighting-Scene plus OFF and Group DIM and BRIGHT buttons provide for flexible control
Remote Control	177RC	Hand-Held IR Remote Control provides convenient lighting controls from different room locations
Remote Control Infrared Receiver	177IR-IWA	IR Receiver for 177RC Remote Control
2-Way Signal Repeater	17100-2WY	Used to control lighting on more than one circuit
Occupancy Sensor Control Bridge	177OC	Operates Scene devices in conjunction with any Leviton Occupancy Sensor

Lighting Controls Group

Designer Bed and Bath Lighting Ambience Package

Package features TouchPoint™ Touch-Pad dimmers in bedrooms and bathrooms, Decora Plus illuminated switches for welcome nighttime lighting in hallways and guest rooms and digital fan controls for turning bathroom fans OFF after preset time intervals.

Type	Cat No.	Description
Decora Switch (Lens illuminated when OFF)	5611	Single-Pole illuminated switch
Decora Switch	5613	3-way illuminated switch
Decora Switch (Lens illuminated when OFF)	5614	4-way illuminated switch
Dimmer	TPI06-1L	TouchPoint™ 600W incandescent w/LED locator
Dimmer	TPI10-1L	TouchPoint™ 1000W incandescent
Timer Switch	6230M	Turns fans OFF using factory-set time increments of 5-10-15-30 minutes

Designer Lighting Package

The Designer Lighting Group's energy-saving *Lighting Magic* package features advanced-technology Leviton passive-infrared (PIR) occupancy sensors that have a proven track record in commercial environments where reliability, efficiency and aesthetics are equally critical.

Type	Cat No.	Description
Motion Sensors	ODS10-ID	Features large coverage area and provides automatic ON and OFF light switching in response to occupancy
Timer Switch	6230M	Turns lights OFF using factory-set increments of 5-10-30 minutes

Cinema Style Package

The *Cinema Style* package brings a professional-quality, remote-controlled scene lighting system to home theaters and entertainment areas.

Type	Cat No.	Description
Dimmer	MNI10-1L	Monet™ scene capable 1000W incandescent, architectural style
Controller	MN00C-1L	Scene controller, 7 scenes
Accessory	177RC	Remote control, 4 scenes
Accessory	177IR-IWA	Infrared receiver, wall and ceiling mount
Dimmer	MNM06-1L	Monet™ scene-capable 600VA magnetic low-voltage, architectural style
