

Server Cabinets

Rugged Construction
Engineered Cooling
Locking Front/Rear Doors

FEATURES

- Arrives on site fully assembled and ready to use - Simply unpack, roll down provided ramp, and position in place
- 34" internal depth accommodates deep server chassis (rails pre-set at 29.2" to accommodate standard server mounting brackets)
- Rolls through a standard 7' doorway (79.5"H) without compromising internal usable space
- Door easily reversed from right to left-hand hinged on site

SPECIFICATIONS

- ◆ Front and rear 19" mounting rails: yellow zinc-plated
- ◆ Cable opening in frame bottom: 11" (300) x 29.2" (742)
- ◆ Internal equipment mounting per EIA-310-D universal hole spacing - 9.2mm square holes allowing the use of M6 cage nuts
- ◆ Packaging requirements to Telcordia™ GR63-CORE specifications
- ◆ 1000 lb. static weight load capacity

Square holes accept cage nuts,
compatible with various LAN
equipment

**Fully vented
rear door -**
integral cooling
scheme

**Two 4" diameter cable entry
holes** in top and bottom plus
large open bottom provide ample
cable entry/egress facilities

Doors and sides easily removed
simplifying installation of equipment

Hubbell Premise Wiring's Server Cabinets provide a secure, reliable housing for critical network equipment.

The unique honeycomb ventilation pattern, which covers the front and rear doors, and top, provides a high degree of open ventilation area while complementing the appearance of every data-center.

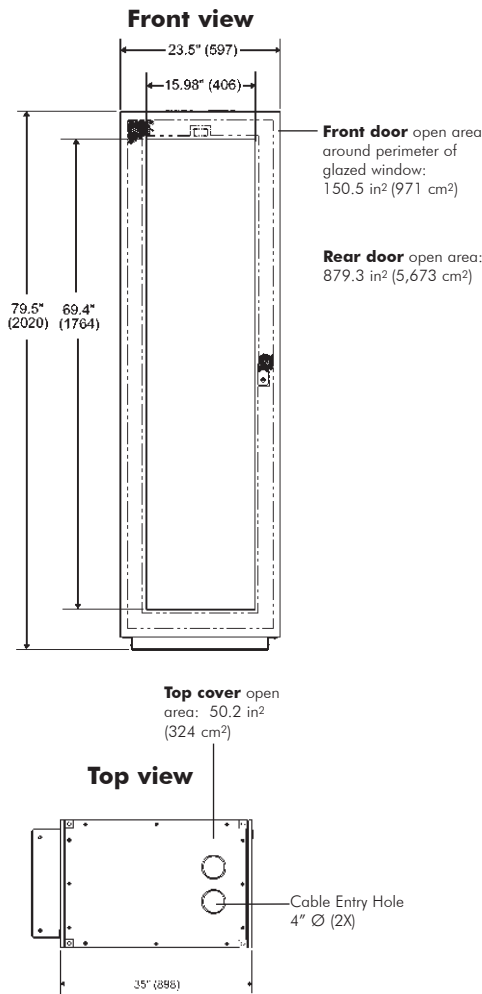

A wide range of accessories complements the SVR cabinets and can be used to adapt the cabinet to various applications. The mounting depth of the SVR series cabinets accommodates servers, UPSs, storage devices, and other network equipment from all major manufacturers.
