

Clauss® EMBROIDERY / SEWING TOOLS

SEWING TOOLS

- No. 1612 Pattern Shears are hot-forged of solid steel and provide EXTRA leverage for cutting heavy patterns, layers of material, and pins in the material. The balance of the beveled blades makes these shears very easy to use.
- No. P91 Pinking Shears are designed to finish a wider variety of fabrics than other pinkers because the deep cut teeth provide professional, ravel-free pinking from sheerest silks to heavy woolens. Stainless Steel blades. Ambidextrous handles for right- or left-hand use.
- No. 693 is specially designed for trimming appliques. Offset handles. Long shanks for EXTRA leverage. High quality cutlery grade steel.

THREAD CLIPS

- The Clauss No. TC4 1/2 Thread Clip is the finest tool for clipping threads and other light cutting operations.
 - Ball-bearing construction.
 - Hot-forged steel. Double-plated with chrome over nickel.
 - Precision ground blades.
 - Quick action spring return.
 - Can be re-sharpened.
 - Replacement parts are available. Call Clauss for details.
- Lightweight No. FL5 Thread Clip has stainless steel replaceable blades, extra sharp points, and plastic casing with thumb rest.
- Value-priced No. 1011 Thread Clip has stainless steel blades, and plastic casing.

Clauss® SPECIALTY TOOLS

- Nos. 57 and 57C are forged, high quality steel tools with short, powerful, precision-ground blades and superior hardened edges for cutting light metal. No. 57C has blades curved to the right.
- No. 3411 Multi-purpose cutter. Stainless steel blades, yellow plastic grips, action spring, one blade serrated for EXTRA grip. Lock to keep tool closed when not in use. A good pocket tool.
- No. 3412 Multi-purpose cutter. Heavy duty blades for cutting jobs throughout the workplace. One blade serrated for EXTRA gripping power, plus notch for cutting many grades of wire. A true multi-purpose tool. Yellow plastic grips. Action spring.
- No. 3140 is a value-priced pruner with by-pass blade action that provides a clean, sharp cut for pruning. Heavy duty orange plastic handles.
- No. GS91 is an ambidextrous, spring action, heavy duty shear that will provide years of service. It is used in fisheries, meat packing plants, and orchards where a heavy duty tool is needed. Spring automatically opens tool after each cut. Tool is hot-forged steel, double-plated for protection against stains and rust. No. GS91 has straight blades. No. GS91KBR has curved blades. No. GS91SERGO has ergonomic handles and one blade serrated for firm grip on wet or dry materials.
