Sold by:

## MULTI-PURPOSE HIGH LEVERAGE

- The most versatile shears in our line.
- Nos. 4258 and 4278 have one blade serrated to prevent slip-out on specialty fabrics, wire, wet and dry materials, and even mild steel.
- Nos. 4248KE and 468 have KNIFE EDGE for easier cutting action and less stress for operator.
- Nos. 4268, 4278 and 468 are ADJUSTABLE.
- Extended ride for EXTRA cutting action.
- EXTRA leverage for cutting thick, tough materials.
- Wide applications for automotive, rubber, electrical, assembly, sewing, textile, leather, construction, shipping rooms, MRO, and much more.
- Time-saving and cost-effective because they do the job right the first time.
- Easy cutting action.
- Many models made of molybdenum steel for EXTRA strength.
- All models thru-hardened, fully double-plated with chrome over nickel, and MADE IN USA.

## SPECIALTY HIGH LEVERAGE

- Same quality features as multi-purpose high leverage shears.
- No. 4268BP Ball Point Fabric Saver. Tired of snagging the next layer when cutting layers of fabric? Here's the answer — a Clauss high leverage "Fabric Saver" with safety tip. Ball point forged into original forging to assure dependable service.
- No. 4268DP has dubbed points for those who need a high leverage shear without sharp points.
- No. 4268KBL used in fisheries and meat packing houses, and in industries where trimming molded parts cannot be wholly accomplished with cutting dies, so curved blade shears are essential for trimming the remainder. Blades curve left.
- No. 4877 Light Metal Shears, for cutting a wide variety of materials including light metal.
