

Clauss® We Make Your Job Easier!

925CS-ERGO Ergonomic Electrician's Scissors/Splicer's Snips

**The world's leading
supplier of fiberoptic stripping,
cutting and cleaving tools.**

Made in U. S. A.

- Entirely new, ergonomic snip for linemen and installers
- One blade features ergonomically shaped, cushioned palm rest; other blade has the traditional ring bow
- Evenly distributes more leverage than ordinary snips, with less pressure on user's hand
- Serrated blade prevents wire from sliding during cutting
- Stripping notches for 19 and 23-gauge wire
- Scraper and file on top of the blades
- Comfortable cushion grip
- High-quality, precision-ground, cutlery-grade, carbon steel blades with chrome-over-nickel plating for extra protection against stains and rust--a *Clauss* Hallmark

Patent Pending
