

# Corrugated Loom Tubing

## FEATURES

- Impact and crush resistant
- Available in slit and solid wall design
- Available in standard colors of yellow and orange
- Available in polyethylene and heat stabilized nylon

## APPLICATIONS

- Protect wires from abrasion
- Route and manage a variety of wires and cables, including fiber optic
- Bundle wires in control panels
- Contain and organize wire harnesses
- Route wires in automotive, truck, trailer, conversion van, recreational vehicle and marine industries

## BENEFITS

- Provides excellent abrasion resistance
- Easy installation for applications with and without breakouts
- Useful for identification of fiber optic applications
- Can be used in many applications

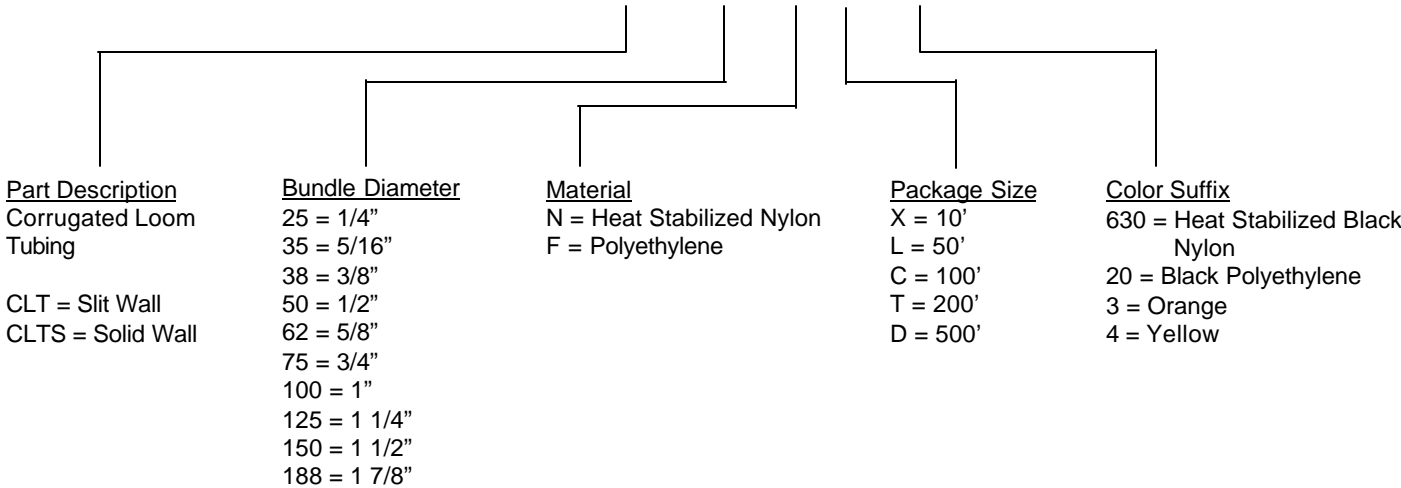

Abrasion Protection Materials Technical Data For Corrugated Loom Tubing		Ratings & Approvals		Physical Properties		Chemical Resistance			
		UL Temperature Index	Flammability (UL 94)	Melting Temperature	Specific Gravity (d792)	Minimum Tensile @ 23° C (psi)	Organic Solvents	Alkalies	Acids
CLT	<b>Black Polyethylene</b> Economical material suitable for continuous use at temperatures of -40° F (-40° C) to 176° F (80° C).	N/A	HB	266° F (130° C)	.926 .940	1529 (D638)	Excellent	Excellent	Excellent
	<b>Heat Stabilized Black Nylon</b> Nylon is a strong, durable, high abrasion resistant material for continuous use at temperatures of -40° F (-40° C) to 248° F (120° C).	N/A	HB	437° F (225° C)	1.06-1.16	10.000 (D638)	Excellent	Good	Fair

NOTE: Typical operating temperature ranges are extended based on end use application and specific environmental tests.

# The Functional Part Number System Makes Ordering Easy

## Corrugated Loom Tubing Part Number Description

### Example: CLT 100 N-C 630

\*\*Contact factory for additional sizes, materials, colors, and bulk packaging.

NOTE: Custom cut-to-length sizes are available upon request. Contact factory for details.

# Corrugated Loom Tubing Fittings

NEW!

## FEATURES

- Fast assembly
- Virtually eliminates taping
- Easy to assemble
- Locking latch design
- Durable polyethylene shell
- Works with most popular sizes of Corrugated Loom Tubing

## BENEFITS

- Reduces production time
- Improves system appearance
- Reduces operator fatigue
- Secures fittings firmly in place
- Protects wires
- Provides easy selection of fittings for an application

PRODUCT BULLETIN

Corrugated Loom Tubing and Fittings

PANDUIT® offers a full-line of Corrugated Loom Tubing and Fittings for wire harness and cable applications. Corrugated Loom Tubing (CLT) provides users with an economical solution that features efficient installation and complete abrasion protection. Available in heat stabilized nylon and polyethylene materials, CLT is suitable for a wide range of environments. It is also available in both slit and solid wall construction to facilitate easy installation in a variety of applications. PANDUIT's new line of Fittings provide a secure way to join CLT at junctions and breakouts while improving the appearance of wire harnesses.

Our products are warranted to be free from defects in material and workmanship at the time of sale but our obligation under this warranty is limited to the replacement of any product proven to be defective within 6 months (for product) or 90 days (for tools) from the date of delivery. Tool warranty is void if PANDUIT tools are modified, altered or misused in any way. Use of Panduit tooling with any product other than the specified Panduit products for which the tool was designed, constitutes misuse. Before using, user shall determine the suitability of the product for his intended use and user assumes all risk and liability whatsoever in connection therewith.
