INDUSTRIAL MAX® DUST CAPS

The Industrial MAX dust caps are the ideal way to protect your investment in your industrial cabling system. Outlet dust caps can be used to protect unused outlets or to seal an outlet during wash down periods when the outlet and plug may be disconnected. Plug dust caps protect Industrial MAX patch cords from exposure to elements or accidental damage when not mated to an outlet.

Both caps are constructed of industrial grade thermoplastic for superior protection and durability. Additionally, both the outlet and plug dust caps feature a retention chain, which prevents them from being misplaced when not in use.

INDUSTRIAL MAX PATCH CORDS

Industrial modular patch cords combine the high performance and quality that Siemon cords are known for with a protective plug housing and industrial rated stranded cable designed to withstand the rigors of a factory floor environment.

Our industrial category 5e stranded cordage is petroleum and UV resistant, is not effected by common chemicals and water, operates in a wider temperature range, and provides a longer flex life than normal cords.

A variety of cord options are available to meet a variety of customer needs — UTP, ScTP, category 5e industrial plug to standard RJ45, and more. Choose the industrial modular cord that best suits your needs for a complete end-to-end Siemon channel solution.

Part #	Description
XC5-(XX)	Category 5e, UTP, industrial plug-to-industrial plug
XC5-(XX)-B05	Category 5e, UTP, industrial plug-to-modular RJ45 plug, yellow boot
XC5S-(XX)	Category 5e, ScTP, industrial plug-to-industrial plug
XC5S-(XX)-B05	Category 5e, ScTP, industrial plug-to-modular RJ45 plug, yellow boot

*Use (XX) to specify length: 03 = 0.9m (3 ft.), 05 = 1.5m (5 ft.),
07 = 2.1m (7 ft.), 10 = 3.1m (10 ft.), 15 = 4.6m (15 ft.), 20 = 6.1m (20 ft.)*
