

INSTALLATION TOOLS

PRODUCT FACTS

- ▲ High quality, professional tools ensure proper cutting and termination of cables and connectors.
- ▲ Specifically designed for home systems installations.
- ▲ Testing tools for performance measurements and troubleshooting.
- ▲ Using the right tools saves time on the job.

Radial Compression Tool

Radial Compression Tool

Part Number

- ▲ Crimper for the OnQ Conical Crimp Connector and OnQ RG-6 Coaxial Video cable.
- ▲ Rugged, easy-to-calibrate design ensures consistent, accurate results.
- ▲ Cushioned handles for comfort.

364247-01

360° Conical Coax F Plug, 100 pcs

F connectors are used with the OnQ Quad Shield coaxial cable and are crimped with the 360° conical compression crimp tool.

364246-01

Coax F Plug-RG-6 Quad Shield

Coax F Plug-RG-6 Quad Shield, Hex Crimp 100 pcs

F connectors are used with the OnQ Quad Shield cable and are crimped with the Hex crimp tool (363291-01).

363140-03

Coaxial Crimping Tool

- ▲ Used with hex crimp F-connectors (363140-03) and OnQ RG-6 coaxial cable (364251-01)

363291-01

Extended Coax Connector Wrench

RG-6 Coax Stripper

- ▲ Patented spring action adjusts to cable automatically.
- ▲ Provides industry standard strip lengths.

362721-02

Replacement Blade Cartridge, Coax Stripper

0.25"/0.25" strip cartridge for use in OnQ RG-6 coax stripper (362721-02)

362863-02

Coax Flaring and Insertion Tool

Extended Coax Connector Wrench

- ▲ Used to tighten the coax connectors in small places, such as the Hide-A-Port outlet.

364347-01

Coax Flaring and Insertion Tool

- ▲ Used to flare the cable jacket and provide leverage when inserting the connector prior to crimping.

364346-01

UTP/Coax Cable Tester w/Remote

UTP/Coax Cable Tester w/Remote

Part Number

"Wire map" continuity testing for Cat 5 and coaxial cables. Also a tone generator. 2 piece unit includes Cat 5 test cables.

364276-01

Replacement RJ45 Jumpers with UTP Tester

NEW

Two 12.5" RJ45 test cables for the UTP/Coax Cable Tester (364276-01).

364340-01

Category 5 Cable Stripper

Category 5 Cable Stripper

- ▲ Self-adjusting wire stripping/cutting tool with a precise rotary action design for clean cuts.
- ▲ Enclosed blade and rounded tool body ensures safe operation.
- ▲ Patented stripping design ensures conductor will not be damaged.

363292-01

Tone Probe Tester

Tone Probe Tester

Identify, trace and troubleshoot coaxial and Cat 5 cables. Use with Cable Tester (364276-01).

364277-01

110 Punchdown Tool

110 Punchdown Tool

Spring-loaded design ensures consistently reliable connections with minimal force when terminating wiring to 110-type quick connect blocks.

363293-01

Modular Jack Palm Tool

Modular Jack Palm Tool

Protects against injury to the installer and damage to the jack when using a 110 punchdown tool to terminate category wiring to RJ25 or RJ45 modular jacks.

364378-01

High Performance RJ45 Modular Plug Hand Tool

High Performance RJ45 Modular Plug Hand Tool

Professional quality hand tool cuts, strips, and terminates Category 5 cable. Ratchet control provides complete, high-quality termination. Includes high performance 8 position die set. Other interchangeable die sets are available as well.

364406-01

High Performance RJ-45 Modular Plugs

RJ-45 modular jacks are designed for use with OnQ Cat 5 cable. 25 pack

364405-01

Basic Installation Video

NEW

Provides instructional information on how to install the OnQ system, including cable stripping, termination, and module installation.

364483-01
