AT45D-8-09
(Shown with AT 40 I.D labels)

45° ANGLED FACE PLATES
The AT45 series 45° angled Versatap faceplates offers better external protection than the traditional faceplates and helps maintain the proper bend radius that is required Category 5, Category 6 and fiber patch cords. The AT45 faceplates will accept the entire family of Versatap snap-in modules and fits over the AT30M or AT45MB surface mounting boxes or fits flush by using the AT90 or AT92 bracket.

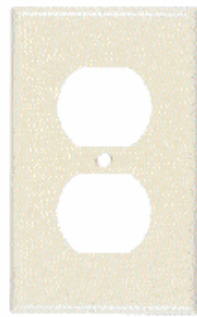

PART NO.	DESCRIPTION
AT45S-4-XX	Single gang 4 port faceplate
AT45D-8-XX	Double gang 8 port faceplate w.q 4 blanks (AT31XX)

VERSATAP JACK HOUSING

The AT106H is designed to accept all Versatap Modules.

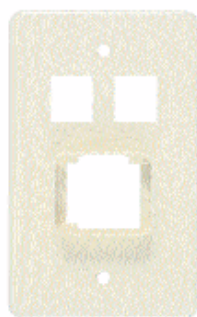

- AT106H-52** (Duplex Housing, Elec. Ivory)
- AT106H-15** (Duplex Housing, White)

FACE PLATE

The AT106P is designed for the AT106, AT106H and AT107 IDC Flush Jacks.

- AT106P-15** (Duplex, White)
- AT106P-52** (Duplex, Elec. Ivory)

FACE PLATE

The AT39 Faceplate will accept 2 Versatap modules and 1 IBM type connector.

- AT39-09** (Ivory)
- AT39-14** (Grey)

*STAINLESS STEEL FACEPLATES

Allen Tel Products new Stainless Steel Faceplates are designed for use with the entire Versatap line of products including Cat5E and Cat6. The new design allows the jack to fit flush with the faceplate, eliminating the jack from protruding through the faceplate. Various port configurations are available for installation in standard EMA single gang outlet boxes or the Allen Tel standard EMA boxes.
