

Portable Test Equipment

TS30™ **Analog Test Set**

*industry standard
for reliability
and durability*

Recognized as the new industry standard, the TS30 test set provides superior quality at an affordable price. With its high impedance Monitor for DataSafe™ operation, technicians can clip onto a line in Monitor mode without disrupting existing traffic. Harris' unsurpassed RainSafe™ protection standards and DropSafe™ durability assure the test set will keep working even in the toughest environments. New weatherproofing provides enhanced resistance to severe weather conditions.

Features:

- High impedance monitor mode
- Automatic regulation of speech levels
