ORGANIZING. STORING. SECURING.

## DUAL TOWER SLIDING SHELF

▼ **Two independent sliding trays support up to 150 lb. each.**

▼ **Shelf extends 25", providing access to the rear of tower CPUs.**

▼ **Shelf locks in fully opened or closed position, providing additional stability.**

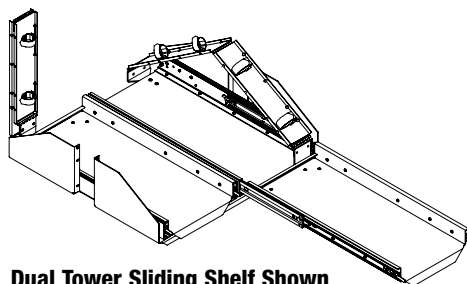

▼ **Ships fully assembled.**

▼ **23" version holds up to 9" W equipment per sliding tray.**

▼ **25" version holds up to 10" W equipment per sliding tray.**

This new rack mounted shelf has two independent sliding trays capable of supporting 150 lb. each, providing a solution to the problem of racking tower CPUs in a space-saving manner while still allowing accessibility. With a full 25" extension, access to the back of tower CPUs is easy. Trays lock in fully opened and closed positions to provide additional stability. Mounting hardware not included.

The optional cable management arm prevents tangles, twists and damage from cuts, kinks, etc. during shelf extension or retraction as well as maintaining proper bend radius of the cable.

**Dual Tower Sliding Shelf Shown with Optional Cable Management Arm Kit Installed**

### OPTIONAL CABLE MANAGEMENT ARM KIT

▼ Keeps cables organized and prevents tangles, twists and damage.

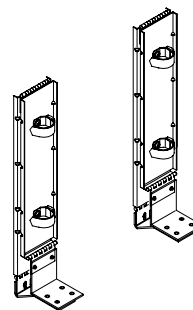

▼ Four Saf-T-Grip® Cable Management straps (3/4" x 4", black) keep cable organized.

▼ Made of cold-rolled steel.

▼ Finish is clear over zinc plating.

▼ When using the cable Management Arm: Maximum equipment depth: 22" Minimum height clearance to allow retractor arm to function properly without interference: 17"

▼ Kit includes two Cable Retractor Arms (one for each tray).
