## SLIMFRAME™ C-SERIES CABINET CABLE MANAGER

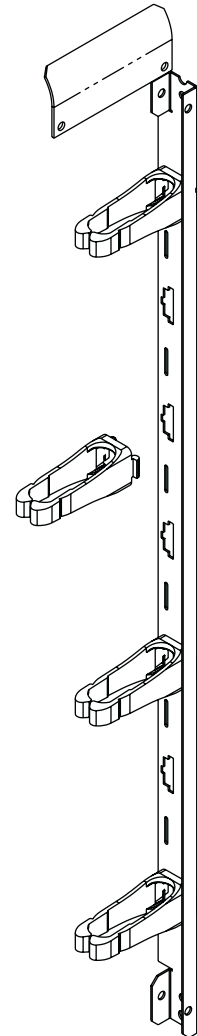

### FEATURES:

- > Cable manager provides a vertical cable management solution for the SlimFrame C-Series Cabinet System.
- > Mounting brackets can be attached in three positions, increasing flexibility in cable routing.
- > 1.45"W x 4.13"D x 1.40"H plastic U-ring design allows cables to be added easily without conflict.
- > Rings snap on, making new configurations a simple process.
- > Control radius helps maintain a proper bend radius in cables, eliminating the risk of data distortion or data loss.
- > Available for three cabinet size heights.

You no longer must choose between a cabinet that will fit on a 24" floor tile and a cabinet with functional vertical cable management. CPI has once again provided the better solution. Introducing the SlimFrame Cable Manager - designed specifically to maximize space utilization in our SlimFrame Cabinet.

The SlimFrame Cable Manager includes two vertical mounting brackets, eight cable rings, control radius and hardware kit. Mounting brackets can be attached to the horizontal mounting rail in three orientations, increasing flexibility for on-site customization. In addition, installation is made easy by mounting to pre-installed nuts or bolts in the horizontal mounting rails. U-shaped cable rings can be detached from, or added to, the vertical mounting bracket in order to accommodate your cable routing needs and to allow more flexibility with cable management. Rounded edges protect cable sheaths, minimizing cable snagging and damage. The control radius ensures proper bend radius in cables entering the cable manger from outside the cabinet, thereby eliminating the risk of data loss or distortion.

The cable manager comes pre-assembled with eight rings equally spaced over two sections. In addition, CPI offers accessory kits to complement the cable manager. A SlimFrame Cabling Ring Accessory Kit provides eight additional cabling rings. The Saf-T-Grip® Open Loop Series is also available to ensure a tangle-free installation. The SlimFrame Cable Manager is the perfect enhancement to the existing SlimFrame C-Series Cabinet System.
