

CFL CABLOFIL L TRAY

↑↓ 2" / 54 MM

↔ 4" / 100 MM

↔ 10' / 3 M

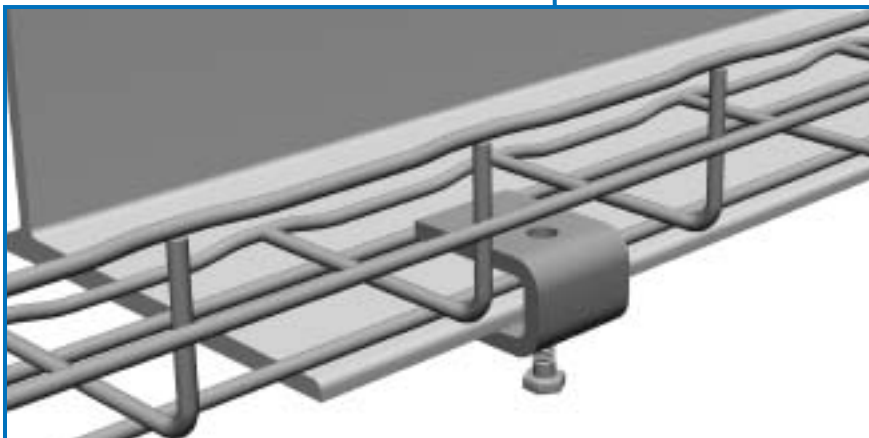

- Can be configured to any installation as other Cablofil tray products.
- L tray can be used in conjunction with I or C beams— the beam profile becomes part of the cable containment pathway.

ETC TRAY BEAM SUPPORT

↑↓ CF30 - CF54 - CF105

↔ 4" → 8" / 100 → 200 MM

- Clamps tray directly to I-beam.
- No additional attachment hardware needed.
- ETC can be used between distribution racks and inside rack enclosures for cable management.
- Use to attach any tray directly to equipment for routing cables or tubing.

GC

Introducing a unique tray from Cablofil, the company that invented wire cable tray. Cablofil L Tray is designed for close, tight installations where access to the cables is limited or in installations close to the ceiling or deck. Use the ETC Tray Beam Support Clamp for installation along I beams. It is compatible with the entire Cablofil line of accessories and can be fabricated on site to adapt to any installation with side action bolt cutters.
