New from Cablofil, Telex Rail, a wire cable tray developed for small cable runs that attaches directly to equipment, cabinets or walls. A unique cradle wire design gives the tray a solid and steady base without rocking. Telex Rail is designed for complex installations with small diameter cables on custom machinery or for power and control cables that need support or protection. As with all Cablofil tray, it can be fabricated on site to match any installation configuration with side action bolt cutters.

## CTXF 35 TELEX RAIL COVER

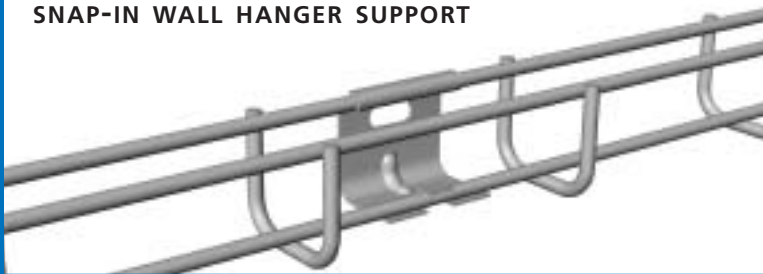

- Cover eliminates dirt and dust build-up on cable.
- Field fabricate on-site to fit changes in levels.
- Provides physical protection for cables.
- Use built-in tabs for permanent attachment to tray.

## UC35 TELEX RAIL STANDOFF SUPPORT

- Specially designed to attach Telex Rail to cabinet tops and channel framing.
- Fold over tabs secure tray without nuts and bolts. Just snap in place.

## TEL CAT 30/41 SNAP-IN WALL HANGER SUPPORT

- Attaches Telex Rail to sides of cabinets, walls or channel framing.
- No screws required for tray attachment. Just snap in place.

A complete line of accessories have been specially designed for Telex Rail. The UC35 standoff support is useful when mounting to flat surfaces or channel framing. A snap-in wall bracket, TEL CAT 30/41, makes for fast installations on vertical surfaces. Both will secure the Telex Rail without additional hardware. Also available, the CTFX 35 cover keeps cables clean and safe. Built in tabs secure the cover to reduce install time.
