* Only one device port can be in use at a time—you cannot receive voice or fax calls while online.

† DSL service requires activation from your local DSL provider.

DSL Compatible[†]
If you have DSL service, you can now
receive Voice and Fax calls, even while you're online!

Saves You Money

by eliminating expensive extra phone lines!

COMSWITCH[®] 7500

Incredibly easy to install!

Setup only takes a few minutes. Just plug in the ComSwitch. Connect your devices into the clearly marked ports. No special wiring. No software to install. You're ready to go!

Even easier to use!

The ComSwitch does everything **AUTOMATICALLY**. It listens to each incoming call for CNG fax tones and touch tones, then switches the call to the right device. Even while you're away.

Other Popular Small Office/Home Office

Applications:

- Telecommuting
- Point-of-Sale Polling
- Credit Card Readers
- Check Readers
- Remote Monitoring
