PANALOG

Powerful Call Management Solution & Accessories All In One Box!

Every business owner or homeowner deserves to know what is happening at their facility. PanaLog provides every customer that owns a Panasonic Telephone System this extra added value of call management and an extremely powerful software program.

PanaLog can measure and evaluate all call activity, employee productivity, business growth, long distance bills, telephone abuse and much more. PanaLog puts you in control and lets you view all call activity, or zone-in on specific calls, employees, dates, departments, etc., with our easy point-and-click menu options. PanaLog allows you to produce powerful reports and graphs in seconds.

Key Features

- Monitor Employee Productivity
- Stop Telephone Abuse
- Search Call Records By Name
- View Long Distance Bills Immediately
- Link Employee Names To Extensions
- Exclude Owners/Managers Extensions From Reports (Optional)
- Call Accounting Section For Billing Clients
- Logs All Caller ID Activity (Unlimited Storage)
- Converts Area Codes To Geographic Locations (For Easy Call Location Identification)
- Home Owners: Monitor and protect children. Know who they are calling, what time and who is calling them.
- SMDR & MOH Cable Kits included & assembled (For fast plug-n-play connectivity)
- Generate 17 different reports & 30 different graphs
