

### Physical Description

Figure 1-2. Pantel Front Panel

The front panel of the Pantel unit incorporates a speaker and a Call button. The microphone can be found at the bottom of the unit. The front panel is attached to the wall using a bracket and screws.

The Pantel unit is a hardwired unit powered by an external 12V AC transformer, included in the package. Optionally, you may use a 12-24V DC adapter (for outdoor unit only).
