

AWH-55 Wireless Headset

Ultimate Sound Quality and Mobility for the Office

When you're on the phone, the information you need may not be in front of you. It may be in the next office, or down the hall. To keep up, you need the ability to move around while staying in touch. You need the revolutionary new Avaya AWH-55 wireless office headset system.

Wireless Hands-free Mobility

The AWH-55 is the next-generation wireless headset system that lets you take the conversation wherever you need to go-up to 300 feet away from the base unit.

All-day Freedom and Convenience

Walk and talk for up to eight hours on the phone without having to recharge your AWH-55.

Crystal Clear and Secure Conversations

The AWH-55 uses digital 900 MHz technology to deliver calls that are clear, private and completely secure.

Intuitive, Intelligent, Innovative

The AWH-55 has an integrated IntelliStand™ that makes wireless mobility as easy as answering the phone—pick up the headset and you pick up the call. And when you're away from your desk, you're still in touch to think and talk on your feet, either answering or ending a call with the touch of a button*.

Stylish, Convertible, Comfortable

The AWH-55 is as stylish as it is comfortable with a customizable, convertible headset that can be worn over-the-ear or over-the-head, ensuring all-day wearing comfort. An optional behind-the-head style is also available.

Key Features and Benefits

The Avaya AWH-55 Wireless Office Headset System gives you the freedom to:

- Roam up to 300 feet away from the base unit in a typical office environment
- Talk for up to eight hours without recharging
- Fully recharge the headset in less than three hours. 80% recharged in 1.5 hours
- Digital 900MHz for clear, private and secure conversations
- Built in hookswitch control. Answer and end calls when you're away from your desk with the touch of a button*
- Be heard clearly in busy environments through a noise-canceling microphone
- Quickly mute the microphone with the touch of a button
- Choose between over-the-ear and over-the-head wearing styles (both included).

- 4610sw, 4620, 4620sw, 4630, 4630sw
- 6416D+M, 6424D+M

Avaya Headset Guarantee

In an effort to ensure that Avaya products provide our customers with the highest levels of safety and quality, Avaya supports only those headsets and headset adapters that carry an Avaya brand or logo.

Avaya headsets and headset adapters are designed to work in concert with Avaya terminals to protect customers from electrical and acoustic shock. While it is possible for a non-Avaya headset to achieve a satisfactory level of customer safety, Avaya formal testing and Declaration of Conformity are based only on the headsets that carry the Avaya brand or logo. As a result, Avaya makes no representations regarding whether a particular non-Avaya headset will work with Avaya terminals.

From a technical perspective, there is no industry standard for handset interfaces. As a result, different manufacturers utilize different handset/headset interfaces with their terminals. Indeed, the handset/headset interface in Avaya terminals is different than that used by Avaya competitors, therefore, any claim made by a headset vendor that its product is compatible with Avaya terminals does not equate to a guarantee that the headset will provide adequate safety protection or that the headset will not damage the terminal. In fact, some headsets have demonstrated to cause premature failure in Avaya terminals. Unfortunately, this damage can be the result of repeated use and not something that would be immediately obvious.

Avaya believes that our customers consider safety and quality as two essential priorities when selecting products and support services from a telecommunications vendor. Therefore, Avaya has determined that supporting only those headsets, which carry an Avaya brand or logo, is an important way to meet these customer priorities.

About Avaya

Avaya enables businesses to achieve superior results by designing, building and managing their communications networks. Over one million businesses worldwide, including more than 90 percent of the FORTUNE 500®, rely on Avaya solutions and services to enhance value, improve productivity and gain competitive advantage.

Focused on enterprises large to small, Avaya is a world leader in secure and reliable IP telephony systems, communications software applications and full life-cycle services. Driving the convergence of voice and data communications with business applications – and distinguished by comprehensive worldwide services – Avaya helps customers leverage existing and new networks to unlock value and enhance business performance.
