Sold by:

FastTrac™ Cable Tray may be used in data centers or office spaces to create point-to-point pathways for communications cabling.

FastTrac L Support Bracket and FastTrac Triangle Support Bracket attach directly to the wall providing support for FastTrac Cable Tray running parallel to the wall. FastTrac L Support Bracket attaches to the wall above the tray. FastTrac Triangle Support Bracket attaches to the wall below the tray. Each support holds a single cable tray. Select the support to match the width of the cable tray. Triangle Support Bracket also has openings to support electrical conduit and EMT.

FastTrac Wall Termination Support provides support for one end of a single FastTrac Cable Tray that is perpendicular to the wall.

Use FastTrac Ground Washer to attach FastTrac Wire Mesh Cable Tray to the supports.

Products are listed on the reverse. Contact CPI Technical Support (800-834-4969) for configuration assistance.
