## DESCRIPTION

Tripp Lite's PDU2430 AC power distribution unit offers 24 amp, 120v capacity in a versatile multi-mount cabinet. Detachable mounting flanges are configurable for wallmount, under-counter or 1U/0U rackmount installation. Uses only 1 rack space (1U) when installed in any 19 inch rack, with the potential for 0U mounting in the cable management area of most rack enclosures. Detachable flanges with pre-punched access holes and adjustable depth channels allow user configuration in dozens of potential mounting schemes. Attractive housing with 12 front-facing and 12 rear-facing outlets measures only 4.375 inches in depth. Unfiltered electrical pass-through without a power switch makes PDU2430 ideal for distributing alternate waveform UPS or generator power in rack enclosures, network closets and more. Includes 24 NEMA5-15R outlets, 12 ft AC power cord, two 15 amp circuit breakers, grounding lug and rugged all-metal case design.

PLUG / OUTLETS: Input: NEMA L5-30P / Output: 24 NEMA5-15R (12 front / 12 rear)

ELECTRICAL: 120V AC, 50/60Hz, 24A (Requires NEMA L5-30R wall receptacle)
