--	--	--	---	--

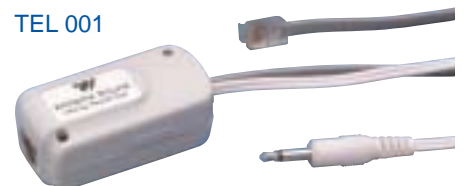

Hear more clearly and easily!

Use the Pocketalker with your telephone! Listen to calls at a comfortable level with a TELELINK adapter from Williams Sound.

TEL 001

Personal FM Systems

Eliminate background noise and other distractions. Ensure that the speaker's message is heard by everyone. Try a Personal FM System from Williams Sound. It's perfect for classrooms, job training, consultation and more.

HOW IT WORKS

The message is transmitted by an FM radio signal

Speaker talks into the transmitter's mic

Listeners wear receivers

THE RESULT:

The message is heard by **everyone**, even by those in the back of the room!

Hearing Helper® PFM 350

- Maximizes a student's ability to listen
- Portable, no wires, no hassle
- Hear more clearly in noisy environments
- Overcomes distance from speaker to listener
- Has a range of up to 150 feet
- Will operate up to 60 hours at a time
- May be used with telecoil-equipped hearing aids

5 YEAR WARRANTY*

Versatile, high-powered FM technology!

R31 Receiver

The R31 receiver features a sensitive **environmental microphone**. This gives the listener more flexibility on what they want to hear. By turning on the environmental mic, they can listen to a nearby classmate speak more clearly.

T30 Transmitter

Hearing Helper® PFM 300

- Same great features as the PFM 350 model - without the environmental mic on the receiver.

Super technology, super price!

Each System Includes:				Optional Microphones:	
Mini-Earphone (EAR 013)	Clip-on Microphone (MIC 090)	System Carrying Case	Receiver/Transmitter Case	Head-band Microphone (MIC 086)	Collar Microphone (MIC 085)

SoundPlus® Infrared Listening Systems

Infrared listening systems are perfect for TV and stereo listening, small groups, language interpretation, offices and more. Listen at the volume of your comfort, without disturbing anyone else.

5 YEAR WARRANTY

Model WIR 952

WIR 952 Stereo Infrared Listening System

- Super high-quality audio
- Comfortable, lightweight, under-the-chin style receiver
- Plugs directly into your TV, VCR, or stereo
- Operates up to 30 ft. from the receiver
- Receiver recharges itself when placed back on top of the transmitter. *It will always be charged when you need it!*
- Automatically shuts off when not in use.
- Operates on 95 kHz, stereo, or 250 kHz. Use your infrared receiver at the movies, theater, and other 95 KHz venues.
- 5 YEAR WARRANTY *

HOW IT WORKS

The TX295 transmitter connects directly to your television, VCR, or other sound source.

Invisible Infrared Audio Signal

Listeners wear the wireless RX295 receiver to listen to the program!

Sold by:

Want a different receiver to use with your infrared system? Check out the WIR 125 listening system:

Model WIR 125
