DuoPro™

Telephone Headset Family

The Most Versatile Headsets Ever Made

Superior sound quality and breakthrough ergonomics make these headsets best in class.

Versatility is the hallmark of our DuoPro line, with best-in-class audio performance and all-day wearing comfort for call center and office professionals.

The DuoPro family offers more wearing styles and innovative features than any other headset: there is the "uncompromising" design of our convertible model that delivers superior comfort, sound and reliability; the unique double T-pad headband on our over-the-head model so there's never a speaker pad pressing on your ear; the ergonomic earloop for over-the-ear convenience, exceptional comfort and stability; and the new behind-the-head neckband for a discreet, stable fit.

All DuoPro models are available with either the Plantronics trademark voice tube or noise-canceling microphone that includes an innovative anti-twist boom.

DuoPro is backed by a two-year warranty for unsurpassed durability all day, every day.

NEW!

Behind-the-Head Wearing Style

Over-the-Ear Style

Over-the-Head Style

World Leadership: Plantronics is a world leader in lightweight communications headsets with over 40 years of experience. We offer a complete line of headsets for call center, office, home, mobile and computer applications, all backed by a service and support team that is second to none.

The Plantronics voice tube advantage: Plantronics invented the voice tube and continues to improve the design to deliver the best in performance and style. Our voice tubes are the only ones that slide back and forth for better positioning and

improved sound quality. You can also add color to your conversations with AttiTube™ color voice tubes.

Reliability for business-critical applications: Plantronics has years of experience developing headsets for mission-critical applications, including 911 centers, the FAA and even the headset that carried Neil Armstrong's first words from the moon. That same attention to durability and reliability goes into the headsets we design for your business-critical applications.

HEADSET AMPLIFIER REQUIRED

AMP UP!

Plantronics offers amplifiers to connect our headsets to your telephones, including cordless models for office mobility.

Direct-connect Polaris™ headsets are available for headset-ready phones and agent consoles.

DuoPro™

Telephone Headset Family

FEATURES

- **The most versatile headsets ever made** with models to fit your favorite wearing style.

- **Advanced ergonomic designs** for superior balance, fit and comfort:

Over-the-head style—Unique double T-pad headband distributes weight evenly so there's never a speaker pad pressing on your ear.

Over-the-ear style—Conformable earloop can be molded for a secure, comfortable fit.

Behind-the-head style—New contemporary design neckband provides a stable, discreet fit.

- **Available with voice tube or noise-canceling microphone:**

Voice tube—Plantronics' trademark design, light weight and unobtrusive. Ideal for most offices and call centers, delivers great sound quality in all but the noisiest environments.

Noise-canceling—DuoPro features an innovative anti-twist boom for perfect placement every time. For noisy environments (over 65 dB).

- **Supports SoundGuard® Plus™ and Call Clarity™** technologies for superior sound.
- **Can be worn on either ear.**
- **Quick Disconnect™** lets you walk away from your phone while still wearing your headset. Adjustable clothing clip and 10-foot coil cord for freedom of movement.
- **Warranty: Two years** for unsurpassed durability.
- **Requires Plantronics amplifier** to connect to phone.
- **Polaris™ direct-connect versions available** for use with headset-ready phones and agent consoles.
