

Air Dam Kit, Cabinet Airflow Baffles

The Air Dam Kit creates a barrier between the cabinet door and the front of equipment along the top, bottom and sides of the cabinet. When used in combination with perforated front and rear doors, the Air Dam Kit helps to channel cool air to the front of equipment and also helps to prevent the mixing of heated air from the rear of the cabinet with cool air at the front of the cabinet.

- Use on M-Series MegaFrame and C-Series SlimFrame Cabinets
- 5"D (130 mm) baffles

Kit consists of:

- (1) Top baffle
- (1) Bottom baffle
- (4) Small side baffles
- (4) Large side baffles
- Installation hardware
