

Polycom® SoundStation2™ Direct Connect for Nortel

Setting the Standard. Again.

Benefits

More productive calls – Polycom's patented Acoustic Clarity Technology allows simultaneous, natural, free-flowing conversation

Hear and be heard clearly – Twice the loudness and microphone sensitivity of the original SoundStation® – eliminates ear strain and repetition

Backlit display provides important information – Displays console phone number, number called and duration/progress of call

Ability to increase coverage – Optional extension microphones expand coverage for larger conference rooms

Nortel PBX conferencing feature – Direct access to your Nortel Meridian's conferencing feature allows quick and easy connections of up to six* locations in a single conference call without using a conference bridging service

* Dependent upon Nortel Meridian PBX configuration

Remarkable Voice Quality. Nortel® Meridian® Compatibility.

For Nortel Meridian users, communicating with crystal clarity couldn't be easier. Just connect a SoundStation2 Direct Connect for Nortel directly into a Meridian PBX digital wall jack. You don't need an analog port, analog adapter, or complicated connections to take advantage of natural two-way conversations with Polycom's breakthrough Acoustic Clarity Technology. Polycom's SoundStation2 product line has redefined the standard for business-quality voice conferencing. With industry-leading full duplex for natural, simultaneous two-way conversation, the SoundStation2 Direct Connect will exceed your expectations in medium to small conference rooms. Delivering remarkable voice quality equal to the original SoundStation Premier® 500D/550D and a 50% increase in microphone sensitivity over the award-winning SoundStation, users can speak in a normal voice and be heard clearly up to ten feet away – making every call a more productive call.

SoundStation2 Direct Connect provides users with advanced features, including a large backlit display that offers easily visible call information and telephone functions. Smart technology, such as Dynamic Noise Reduction (DNR), provides maximum microphone sensitivity, while reducing distracting room and background noise. And the SoundStation2 Direct Connect offers 360-degree microphone coverage with intelligent mixing – so only the microphone closest to the speaker is on for crystal clear conferencing. Plus, the SoundStation2 Direct Connect provides direct access to your Meridian PBX conferencing feature, allowing quick and easy connections of up to six* locations in a single conference call without using a conference bridging service.

In today's Internet driven world, the ability to conduct real time communication and collaboration has become critical to an organization's survival. As the market leader in voice, video, data and Web solutions, our award-winning conference technology makes it easy for people to interact and maximize productivity – over any network, in just about any environment, anywhere around the globe. That's why more organizations worldwide use and prefer Polycom conferencing solutions. Because when people work together, great things happen.
