# Product Information Sheet

WALL-MOUNT CABINET

Our wall-mounted cabinet protects, secures and adds aesthetics to any rack mounted equipment. Uses less space than conventional floor racks or enclosures. Unique dual-locking hinge design provides convenient front and rear access. With the 5.5" x 10.3" cable pass-through port in the center of the back panel, it is possible to route cable through the wall directly into the mounted cabinet for a more secure installation.

Choose a smoked plexiglass or solid metal front door. Cabinet is available in 19" rack width and 14" or 24" depths. Rack mounting surface depth is adjustable front to back 7-1/2" for 14" depth and 16-1/2" for 24" depth. 36" usable mounting height (20 mounting spaces). Universal 5/8"-5/8"-1/2" alternating hole pattern on both front and back sides.

Ships fully assembled. Installation hardware included: 1/4" lag screw for backboard or stud mounting and Saf-T-Grip® straps for cable routing. Shipping weight approximately 61 lb for the 14" depth and 71 lb for the 24" depth enclosure.
- Unique dual locking hinge design
- Strong, lightweight aluminum construction
- 19" rack width. 41"H x 24.3"W x 14" or 24"D
