

Introducing Leviton's Exclusive New R.E.B Recessed Entertainment Box

Think "Inside the Box"

Definition

The Leviton Recessed Entertainment Box (R.E.B.) is designed to help the installer manage home theater electronics from a single location. The R.E.B. centralizes device connection points for all AC power, audio, video, home theater, data and phone connections. The R.E.B. enables consumers to take advantage of the latest technologies such as satellite TV, internet access, home networking, whole-house audio/video and more.

Application

Flush-mounted on the wall, the R.E.B. installs practically invisibly behind wall units and entertainment centers, wall-mount flat screen TVs and computer workstations. Perfect for both new construction and retrofit applications, the R.E.B. is a cost-effective modular distribution point that is ideal for houses, apartments, coops and condominiums.
