4" and 5" Universal Splice Trays

APPLICATION

Leviton's Splice Trays provide complete protection for delicate stripped fibers and splices for all types of fiber cable designs. All trays accommodate a wide variety of splice holders and feature a clear polycarbonate cover for viewing of tray contents. Central and offset mounting holes are protected by a spacer block which prevents fiber damage during installation and removal.

FEATURES - SPLICE TRAYS

- Available in 4" and 5" widths.
- Clear polycarbonate covers.
- Tie down holes for securing incoming fibers.
- 24-fiber high-density versions.
- Variety of splice holders.
- Central and offset mounting holes for installation in enclosures.
- Mounting hole spacer block creates a protected path to avoid fiber damage during installation and removal.
- Singlemode or multimode fiber compatible.

PHYSICAL SPECIFICATIONS

Dimensions: See second page
Covers: Clear polycarbonate

DESIGN CONSIDERATIONS

- Available in 4" and 5" widths for various applications.
- Accepts a wide variety of splice holders.
- For specific holder capacity, see chart below.
- Use for singlemode or multimode fiber.
- Spacer block protects fiber during installation

* Splice Trays can be ordered empty or configured.

TYPICAL SPECIFICATION

The fiber splice trays shall be offered in 4" and 5" widths with clear polycarbonate covers for viewing, and tie-down holes for securing incoming fiber. The trays shall accommodate both singlemode and multimode fiber and a variety of splice holders. Central and offset mounting holes with spacer blocks for fiber protection shall be included.

4" and 5" Universal Splice Trays
