SPEAKERPHONE

27881GE2

Cordless/Corded Combination — Provides security of a corded phone and convenience of a cordless. Corded phone works during power outages.

Digital Answering System — Technology that uses memory for storing recorded messages.

Remote Message Retrieval — Allows access to messages when away from home.

Call-Waiting Caller ID¹ with 40 Name and Number Memory — Display shows name and number of incoming call even if you're on the phone with another caller. Memory holds information for the latest 40 calls.

Dual Handset System — Only one phone jack needed. Second handset can be placed in another room with no phone jack.

Base Speakerphone — Provides convenience of hands-free communications.

Handset Volume Control — Adjusts incoming call volume to desired level.

One-Touch Redial — Quickly redials the last number dialed.
