DVR 1800 Series

Remote Digital Announcer

The Ultimate in Remote Downloading

General Description:

The DVR 1800 unit is a solid state, remote programmable, digital recorder that stores audio messages for answer only applications like ACD/UCD, information lines, and night answer.

Features:

- **Flash Memory** — A technological breakthrough gives the DVR 1800 the memory of the future. This new, nonvolatile memory means the recording will never be lost due to loss of power. Flash memory eliminates the need for back-up batteries.
- **Crystal-Clear Sound Quality** — 64 kbps sampling assures the highest quality playback of your on-hold message.
- **Remote** — All program elements, including audio production, volume level and setting of security code can be downloaded remotely from a touch-tone telephone. First time programming can be done at the dealer's facility and the DVR can be sent to the customer's site fully loaded.
- **Verbal Prompting** — A human voice guides users through operation of the on-hold unit. This makes the DVR 1800 the most user-friendly unit available.
- **Adjustable Rings** — The number of rings for 1 to 12 to meet each user's requirements.
- **Call Counter** — The DVR 1800 counts the number of calls it receives. Knowing the number of calls the unit receives gives the business important information. The counter can be reset at any time.
- **Automatic Disconnect** — The DVR disconnects immediately after message completion, or upon premature caller hang up. In either case, the DVR is immediately available to answer the next call.
- **Assured Security** — A personal 5-digit security code guarantees security for the user and programmer.
- **Two Models to Choose From** — DVR 1800 with handset jack gives you the flexibility to record locally from a tape player or the handset jack.

DVRT 1800 with the above features plus a programmable time of day clock to disable call answer during business hours. The clock can be manually disabled at any time with the mode switch.

A Few Uses For the DVR 1800

- **ACD/UCD Groups** – as a greeting or memo announcement
- **Auto Attendants** – as a greeting or memo announcement
- **Information Announcements** – weather conditions, schedules, homework hot lines, after hours message, etc.

DVR 1800 Series

Remote Digital Announcer
