Rules for computer-attached phones using Mitel's TAPI

Desktop software:

- 1 phone per DNIC circuit
- 16 phones per DNIC card
- Maximum 100 phones per peripheral node
- Maximum 200 phones per main control node
- MSA-A-47 & MTSP-A-100 must be installed to enable TAPI functionality.

If more than 80 computer-attached telephones are needed for a main control node, it is recommended to purchase the Mitel TAPI Client/Server offering, providing the customer with the ability to support over 500 users.

Specifications

Width: 226.5 mm (8.9 in.) Height: 204.1 mm (8.0 in.)

Storage temp. Range: -25°C to +70°C (-13°F to +158°F)
