GB65 and GB65K PLUG-ENDED HANDSET ASSEMBLIES

Plug-ended handset assemblies utilize telephone industry standard components and offer the user a large selection of plugs and cords. Refer to ordering information.

See page 27 for color, cord and plug options.

GB69 and GB69K PLUG-ENDED, PUSH-TO-TALK HANDSET ASSEMBLIES

Similar to GB65 and GB65K series with the addition of the push-to-talk feature. Refer to ordering information for plug selection. Can also be wired for push-to-listen or push-to-signal. Other switch configurations and wiring are available on special order.

GB117

AT327
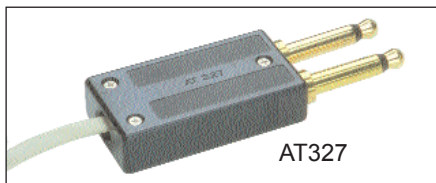

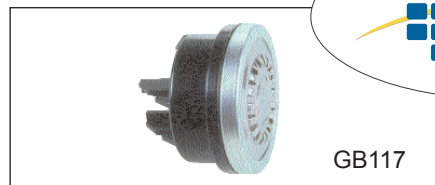

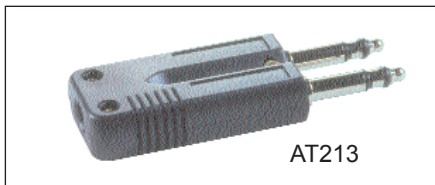

For TRANSMITTER OPTIONS see note below.
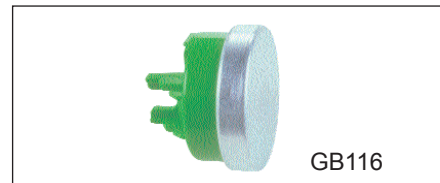

GB116

NOTE: Both the GB65 and GB69 handsets may be equipped with the GB117 Noise Cancelling Transmitter by adding the code -NCT to the part number.

All models are available with the GB116 Electret Electronic Transmitter. Add code -ET to part number.
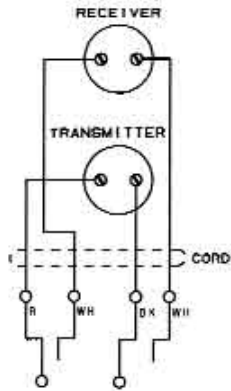

All models are e/w (HAC) hearing aid compatible receiver units.
