

Category 5 Camera System

COMFORT AND SECURITY WITH
ADDED PEACE-OF-MIND

CATEGORY 5 CAMERA SYSTEM

Cameras can be seen over the Internet, TV and monitor – all at the same time.

Weatherproof cameras designed for indoor or outdoor applications.

Wiring with Cat 5 makes for a more cost-effective installation.

F7644

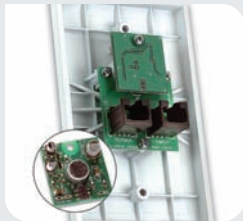

Homes runs to the structured wiring panel.

Power, video and audio run over the same Cat 5 wire.

HOME CAMERAS IN 3 EASY STEPS

1 Run one Cat 5 cable from the structured wiring panel to the camera.

2 Plug your Cat 5 wire into the back of the camera wall plate.

3 Twist in your camera. You're done!

FEATURES

- Crisp video images in color or B&W
- Easily adjustable for proper viewing angles
- Compact discreet design
- TV, LCD or Internet viewing options
- Sequence up to four camera images
- Weatherproof cameras for indoor or outdoor applications
- One wire installation
- Low-light sensitivity for better viewing at night
- Optional microphone to add audio
- Easily integrates with inQuire™ Intercom System

Our innovative Camera Systems use standard Cat 5 cable to deliver crisp video images, power and audio (optional) back to the structured wiring panel. Home security cameras offer peace-of-mind by giving homeowners the ultimate control of their safety and security. Our advanced security camera solutions allow them to screen visitors at the door, monitor the baby's room or keep an eye on the kids playing by the pool – without leaving the easy-chair.

CATEGORY 5 CAMERA HIGHLIGHTS

- **CAT 5-BASED** Reduce the cost of installation through the use of Cat 5 cable. No need to carry special wires! Standard Cat 5 wire – from your choice of manufacturers – is all that you'll need to deliver crisp video images, power and audio.
- **HOME RUNS FROM THE STRUCTURED WIRING PANEL** By running Cat 5 cable from the cameras to the structured wiring panel you can improve your efficiency and allow for easy integration with other systems such as the inQUIRE™ Intercom System and IP networks.
- **SLEEK, UPDATED LOOK** Our cameras are small-sized and discreet to blend in with their surroundings and easily adjusted for proper viewing. Sleek LCD displays are just 3.5" with color-matched wall plates.
