ETR500 - 500VA/300W • ETR700 - 700VA/420W  
ETR1000 - 1000VA/600W • ETR1500 - 1500VA/900W

The Minuteman Entrust Series UPS is an exciting new UPS line that provides users all the features, usually available in higher-priced UPS products, to protect your valuable equipment, offering voltage regulation, spike and surge protection and battery backup.

Each unit has four outlets that provide backup battery support along with spike and surge protection. There are an additional four spike and surge protected outlets for accessory devices that don't require battery support. In addition, two of the outlets are specifically spaced to support equipment with transformer blocks.

The small, uniquely designed, footprint of the Entrust UPS is ideal for placement on or under a desk. All models in the Series can also be installed vertically on a shelf in a rack or cabinet installation.

Additionally, Entrust UPS products come with all the award-winning service and support capabilities offered by Para Systems, Inc., including a three-year limited warranty, (two-years on the battery), and a \$75,000 Platinum Protection Plan (USA and Canada only).

### Entrust Features

- **USB Communications** – The Entrust Series has HID-compliant USB communication that is automatically recognized by all Windows® software versions and require no special drivers.
- **Buck/Boost Voltage Regulation** – Provides a stable AC source during less than optimal power conditions without constant use of internal batteries.
- **Slim-line Profile** – Provides users with the ability to install the Entrust UPS in a variety of settings (rack shelf, floor, desktop, etc.).
- **RoHS Compliant** – Compliant with European Economic Unions directive on the reduction of hazardous substances (RoHS) in electronic equipment.
- **SentryPlus™ Software** – SentryPlus auto-shutdown and monitoring software is included with every unit. No special downloads or coupons are required.
