

OVER-THE-HEAD STABILITY OR OVER-THE-EAR CONVENIENCE FOR THE BUSY OFFICE PROFESSIONAL

- **Convertible Convenience.** Hands-free communications in two configurations, to meet your needs no matter what your headset requirement.
- **Superior Sound Quality.** Supports Call Clarity™ and SoundGuard® Plus™ technology which delivers unmatched acoustic quality.
- **Freedom to Choose.** With two configurations and three different sizes of earhook, you are sure to find the perfect fit for you.
- **Reduced Background Noise.** Optional noise-cancelling technology keeps your conversation quiet regardless of environment.

When your day is filled with one phone call after another, opt for the comfortable and stable over-the-head configuration; other days when you're grabbing a call, using the computer, in and out of meetings, grabbing another call, and dashing out to see a supplier, rely on the unobtrusive easy-on over-the-ear mode. Either way, your hands are free for multi-tasking, your headset is comfortable and secure, and the quality of sound is second to none. Available in both standard and noise-cancelling models.

DuoSet™ CONVERTIBLE HEADSET

*Choice of configuration and
excellent sound quality;
perfect for the office.*
