

Valuable Targeted Advertising

Customer on-hold phone time is your time to sound good to an attentive audience, define your own brand voice and promote your business. Turn callers' waiting time into value-added time and say something special about your products and company.

Aleen Music & Messaging On-Hold provides:

- FLASH Memory to store up to 30 minutes of high quality MP3 audio files, letting you create a unique experience of promotions & melodies
- Advanced Remote Management and updating features let you record and change messages securely over your company's internal LAN
- Zero Gap Audio seamlessly plays through your different audio tracks without pauses
