

Now high-volume outbound call centers have a new profitability-enhancing tool—the HT-Two headset telephone from GN Netcom. The HT-Two is an integrated headset telephone solution: a professional-quality analog telephone made expressly for use with any GN Netcom brand headset. The ideal choice for call centers and service bureaus with predictive, preview and/or progressive dialing capabilities, the HT-Two's no-dialpad design eliminates unauthorized calls—and the associated expense—while ensuring agents stay focused on their work. And since it takes the place of both the telephone and the headset amplifier on an agent's desk, the compact HT-Two saves space and reduces clutter—as well as equipment costs.

- All-in-one headset telephone
- For outbound call center and CTI applications
- Reduces equipment costs and desktop clutter
- Compatible with any GN Netcom brand headset
- Two-year "No Fine Print" warranty

## HT-TWO

THE MORE-CALLS, LESS-COST HEADSET TELEPHONE.

Sold by:

**GN Netcom, Inc.**

**The HT-Two** (shown here with headset stand and ADDvantage Plus headset) is the perfect choice for high-volume outbound call centers with predictive, preview and/or progressive dialing capabilities.

The HT-Two is designed to work with any GN Netcom brand headset. For high-volume call center use, we recommend using the following models:

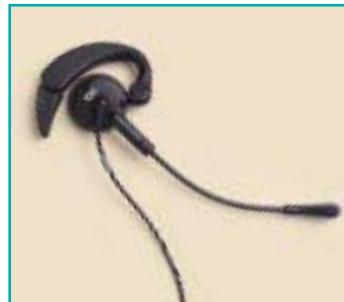

The ADDvantage Plus has become the call center standard, with its combination of great sound, lasting comfort and exceptional durability. (Binaural model also available.)

The Orator-G's unique features, like its swing-away microphone boom, add up to a dramatic new level of comfort, stability and performance. (Monaural model also available.)

The Optima-G delivers great sound and a sleek, ergonomic design plus surprising affordability. (Binaural model also available.)

Stratus Ultra-G offers versatility and value, plus an array of features—like our Adjustable Lobe Hinge™—that maximize comfort, convenience and call clarity.

The Profile SureFit gives you three models (405, 405-FLEX and 405-UNC) to choose from, each with three interchangeable wearing styles—flexible earhook, earloop and headband.
