Tabletop Dialer for Fusion System  
07-TTDIAL-01 Tabletop Dialer

\*Solo Wireless Microphones are ordered separately. Refer to page 5.

*The Revolabs Fusion™ 4 and 8 Microphone Systems are best suited for the Audio/Visual system that is not installed in the room as a permanent feature. These systems are used in small and medium-sized conference rooms where price and ease-of-installation are major concerns.*

Use Solo  
Wireless  
Microphones

## Great audio, wireless mobility, and simple to install

Simply plug the cable into the AV system or phone system and it works. No software configuration is necessary. Even the Fusion box is designed to be easy to use – vertically or horizontally. No equipment rack needed! Just set the Fusion system on the console!

## Cost Effective

The Revolabs Fusion™ Systems come in a 4 and 8 Microphone Systems to match the needs of any AV conference room. No software configuration needed, yielding a lower total cost-of-ownership.

## Just plug the Fusion in and enjoy great wireless audio!

## Video Conferencing

Revolabs Fusion™ Wireless Microphone Solution " is compatible with all of the major video-conferencing solutions, including Lifesize, Polycom, Sony and Tandberg. It includes a remote control to control the sound volume in your conference room or in the conference room at the far end. Decide on where you want to put the Fusion system, whether you want to place it vertically or horizontally, plug in the cables and you are ready to have great wireless audio in any conference room!

## Looks good on a console!

## Audio Conferencing

Plug the Fusion Wireless Microphone Solution into a telephone line and you are on your way to great wireless audio. Use the remote control dialer or the new Tabletop Dialer to dial the conference phone number and set up the optional powered speakers to hear the call. Fusion is compatible with all phone systems.\*

\* May need analog telephone adapter.
