

evoQ 5000 Center Channel Speaker

Part No: HT5157

The evoQ 5000 Center Channel Speaker is optimized for home theater systems. Its bookshelf design is perfect for situations that do not permit an in-wall installation.

Features/Benefits

- Tailored to the specific needs of center channel speakers to deliver 60 percent of a movie soundtrack.
- Features magnetically shielded drivers to prevent video interference.
- Can be placed horizontally or vertically above or below display.
- Equipped with dual polypropylene woofers and silk dome tweeter.
