Multimedia Workstations

Evolving networks demand the technology to support elevated performance requirements. Reality necessitates this elevated performance be delivered via a design that will meet specific mechanical, environmental and aesthetic workstation requirements. Ortronics/Legrand provides industry leading performance in both the individual footprint of TracJack® and the rugged module footprint of Series II®—two premium workstation approaches with a common mission to provide the best quality, performance and value.

TracJack® Modules

NOTE: All Ortronics product dimensions are listed by width, height and depth unless specified otherwise.

TracJack® modules combine the ease and reliability of a front-loading individual jack with preferred 110 termination and offer universal T568A/B wiring.

Clarity¹⁰ᴳ TracJacks

OR-TJ610

Clarity¹⁰ᴳ TracJacks are the first connectors to utilize synchronized reactance to minimize internal crosstalk and reduce the injection of common mode noise, a significant source of alien crosstalk. These connectors work with Clarity¹⁰ᴳ patch cords to provide a nearly transparent signal path for enhanced signal-to-noise (internal and alien) performance.

These front-loading jacks are icon-compatible and can be used in any TracJack workstation outlet or in the Clarity¹⁰ᴳ individual jack panel. Meets TIA T568B.2-10 (draft 5 augmented Category 6) component specifications.
PART NO.	DESCRIPTION
OR-TJ610	TracJack, Clarity® 10 Gig, 180° exit, fog white

Clarity¹⁰⁰ jacks are available in these colors: -00=black, -36=blue, -42=red, -43=orange, -44=yellow, -45=green, -68=Wiremold® gray, -88=cloud white, -99=Wiremold ivory. Add tailcode to end of part number.

Clarity⁶ and Clarity⁵ᴱ Center Tuned, Enhanced Category 6 and 5e TracJacks

OR-TJ600

OR-TJ645

OR-TJ5E00

OR-TJ5E45

Ortronics Clarity® TracJacks feature the improved performance of center tuned Category 6 or 5e connector technology. Enhanced IDC designs make it easier to terminate while reducing the size of the jack.

PART NO.	DESCRIPTION
OR-TJ600	Category 6 jack, 8-position, 180° exit, fog white
OR-TJ645	Category 6 jack, 8-position, 45° exit, fog white
OR-TJ5E00	Category 5e jack, 8-position, 180° exit, fog white
OR-TJ5E45	Category 5e jack, 8-position, 45° exit, fog white

NOTE: T568A/B wiring. Icon compatible.
See color chart below for available colors.

fog white	-00	-13	-36	-42	-43	-44	-45	-68
	WM							WM
-78	-88	-99	-22	-23	-24	-25	-26	-27
WM	WM	WM ivory						

NOTE: Clarity TJ5E00 and TJ600 jacks are available in all colors listed above. The Clarity TJ5E45 and TJ645 are not available in colors 22-27. WM indicates Wiremold color match. These color samples correspond with the tail codes inserted at the end of Ortronics part numbers (ex: OR-TJ600-45). Fog white is standard, requiring no tail code. Consult sales for availability and other colors.

*Indicates also available in -99 Wiremold ivory and -88 cloud white. Contact Ortronics sales department for other colors.

Clarity® Shielded TracJack Modules

Clarity Shielded TracJacks meet TIA Category 6 and Category 5e component specifications and are precisely tuned to the terminated plug values of Clarity patch cords for optimum performance that is field measurable in the channel. Clarity uses dual reactance technology to enhance signal-to-noise ratio, providing a nearly transparent signal path.

- Exceeds ISO 11801 2nd edition including EN50173 2nd edition
- Meets IEC 60603-7-5 2nd edition (draft) specifications
- ETL 3rd party component tested and verified
- Easy lace IDC housing designed to accept larger Category 6 conductors
- Easy to follow universal wiring label—quick and user-friendly, eliminates confusion
- Fits in all TracJack plates and housings
- Icon compatible, C6 and 5E marking on jack face
- Backward compatible to shielded Category 3, 5 and 5e
- Center tuned connectivity design
- Compatible with 110 impact tool
OR-TJS600

TracJack® Faceplates

NOTE: All Ortronics product dimensions are listed by width, height and depth unless specified otherwise.

Ortronics offers a full range of TracJack® faceplates in plastic or stainless steel, with a variety of port capacities to match your workstation applications. All TracJack plates offer recessed label fields and slotted screw holes to adjust alignment. They are ruggedly constructed from high impact thermo-plastic 94V-0 rated to ensure long life. Two to 12-port plastic wall plates now include the ability to rear-load TracJack modules.

Fib-or-Cop II

Fib-or-Cop II offers greater capacity, accommodating up to 12 fiber connections with protected exit from the bottom, and six copper connections, either TracJack® or Series II®. This is a truly segregated design, which allows access to one media without impacting the other. Bottom-exiting connections can be further protected with an optional snap-on shroud.
