

## Aastra Mobile – Next Generation Aastra 630d

**Aastra 630d** is the new DECT ruggedized business phone. It is dust and jet water protected and may be used outside or in rough industrial environments. It can be used worldwide with all Aastra PABXes. Variations for OEM customers are possible. The GAP standard for basic functions is supported.

**Aastra 630d** has a large illuminated 2" graphic colour display and 8 programmable keys provide you with quick access to your favorite functions. Service facilities like firmware download over air help reducing support costs.\*

The handset is equipped with a Bluetooth® interface for cordless headsets and comes with an option for a higher capacity battery.

**Aastra**

# Aastra 630d
