

Voice / Data / Video Faceplate

2-5001 Series Jacks

Product Description

The new Suttle Voice/Data/Video Faceplates are an easy and attractive way to manage all connectivity in one plate. The 2-5001 series is available in two integrated configurations, one allowing both voice and data jacks and the other allowing voice, data and video. All of the smooth faceplate jacks are visibly labeled "PHONE," "DATA," and "VIDEO" above each port respectively allowing the user to easily distinguish between them.

Features

- Attractive one piece design
- Smooth, non-textured surface and rounded corners with painted head screws to match the faceplate.
- Labeled ports
- Data jacks rated to Cat 5e.
- Connections to jacks are 110 IDC.
- Available in standard and oversized.
- F connector available 1GHz or 3GHz SCTE compliant

Specifications

Plate

Inputs: - - - - - Voice - 6 conductor RJ11
Data - 8 conductor, CAT 5e
Video - F81

Outputs: - - - - - Voice - 110 IDC
Data - 110 IDC
Video - F81

Wiring: - - - - - Voice - USOC
Data - T568A

Safety: - - - - - cULus Listed

F-81 Barrel Connectors

2-5001x-F-xx - - - - Materials - Bronze, tin plated
Frequency - 5-1000 MHz

2-5001x-FC-xx - - - - Materials - Nickle plated free spinning brass
Frequency - 5-3000 MHz
Standards - SCTE compliant (SCTE 02 2006)

Outline Dimensions

L x W (Standard): 4.57"L x 2.81"W
L x W (Oversized): 4.875"L x 3.125"W
