

ARIA_{By} CHANNEL VISION™

IC512 5.25" In-Ceiling Speaker

Channel Vision's ARIA™ IC512 5.25" in-ceiling custom installation speakers feature high power handling capability providing true stereo quality sound and not simply background music. The pivoting tweeters can be aimed to any position to custom fit any room, making them perfect for whole-house audio or home theater applications. High quality materials ensure long life and great performance. Gold speaker wire terminals not only provide better contact surface but also offer less resistance to signal transfer for a clearer sound.
