

ClearSounds CS-SHK

Vibrating Pad
for Phone,
Ringer or
Clock

The vibrating pad is a dreamy solution.

If you or a loved one misses calls due to hearing loss or heavy sleeping, this unique vibrating pad makes each call a wake-up call. Simply connect the vibrating pad to a ClearSounds amplified phone, amplified ringer or digital clock, place it under the pillow or mattress and when a call comes in, the vibrating pad shakes. It's simple, smart and super inexpensive.
