

Savi[®] 430

Top quality wireless audio for the PC

The Savi 430 is the first portable PC-based wireless headset system that incorporates DECT™ technology for unsurpassed, enterprise-grade audio quality, even in dense working environments. Hands-free functionality increases productivity by enabling users to multitask and move freely around the office. Enjoy the best PC sound with Savi 430, the only portable DECT USB headset on the market today.

Key features

Premium sound quality

- DECT technology provides better audio; eliminates interference from Wi-Fi networks
- Advanced wideband audio using CAT-iq technology for high definition voice quality
- Noise-canceling microphone filters out background noise
- Digital Signal Processing (DSP) provides more natural voice sound

User-friendly function and design

- DECT dongle has 180-degree articulation for optimal positioning and storage
- Intuitive call controls including answer/end with supported softphones
- Excellent range of up to 300 feet allows hands free productivity
- Adaptive battery for longer talk time
- Conference up to three additional headsets for improved call efficiency

Easy to install and use

- Plug-and-play installation
- Optional control panel installation to set headset, USB adapter and PC media manager custom features
