

Featured Product

Velocity™ Cable Management... It's a snap!

CPI's new Velocity™ Cable Management provides an economical solution that is easy to install, easy to transport and offers more capacity and simplified cable management. Available in single and double-sided vertical and single-sided horizontal configurations, Velocity creates a complete pathway for premise cabling and patch cords, supplying comprehensive cable management solutions for open two- and four-post Rack Systems.

- Easy to assemble – Components snap together effortlessly for quick and efficient assembly
- Easy to ship and store – Compact packaging requires less storage space, makes cartons easy to handle and reduces packaging waste
- Increased cable capacity – Larger cross-section provides deeper interior space
- Simplified cable management – Integrated T-shaped cable guides organize cables
- Protect and hide cables – Attractive snap-on covers secure and shield cables
- Available in multiple heights – Choose from 6' (1.8 m), 7' (2.1 m) and 8' (2.4 m) options

- Features quick and easy tool-less snap together design that takes approximately 3 - 5 minutes to unpack, assemble and install
- Compact packaging is 25% - 57% smaller than comparable managers, reduces waste, freight costs and uses less storage space during staging and clean up
- Single-sided vertical managers are deeper, delivering up to 1/3 more cable capacity than comparable managers
- Includes T-shaped cable guides with more space between fingers and openings that align with each rack-mount unit on the rack, simplifying cable management
- Openings in the back of the managers allow easy front-to-rear cabling
- Snap-on covers provide a secure and protected environment for cables

CPI's
Compact
Packaging

Compact packaging makes it easier to move Velocity through the job site. The photo above is a complete 12 inch wide (305 mm) double-sided Velocity Cable Manager on a standard hand truck. Below is standard packaging for a comparable cable manager which is delivered in two boxes making it awkward and more difficult to pass through doorways and narrow aisles and increases the risk of misplacing parts.
