Rack-Mount Cable Shelf

Use Rack-Mount Cable Shelf in any 19"W CPI Cabinet equipped with an Air Dam Kit to provide a front-to-rear pathway for cables. Cables pass through brush sealed ports along the front of the shelf. Rack-Mount Cable Shelf uses 1U and will fit in cabinets with mounting rails set between 22" (560 mm) and 40"D (1020 mm).

Part Number	Description H x W (in)	Shipping Weight lb (kg)
13517-701	1U x 19, Black	17 (7.7)

Note: Rack-Mount Cable Shelf can be used with all CPI four-post cabinets and racks.

Caster Kit

Front casters are full-swivel. Caster Kit adds 2.5" (64 mm) to the overall height of the cabinet. Includes four non-locking casters and mounting hardware.

Part Number	Description	Shipping Weight lb (kg)
35051-C01	Set of 4 Casters, Black	25 (11.8)

Installation Kits and Mounting Hardware

TeraFrame can be fitted with threaded or square-punched equipment mounting rails. Use screws to secure equipment to threaded mounting rails. Use cage nuts to secure equipment to square-punched mounting rails. With square-punched rails, you can change the thread (cage nut) to match equipment mounting hardware requirements.
